

**They're cute.  
They're cuddly.  
And they're being put to sleep.**

It is now a matter of fact.

The Halifax Humane Society in Daytona, Florida took in 84 rabbits in 2007. Of those rescued:

-  34 were adopted.
-  3 were put to sleep upon request.
-  1 was lost or stolen.
-  However, a staggering 41 helpless bunnies were euthanized. (That's *more* than the number adopted and almost half of the total rescues!)

This happened at just one location. And it's happening all around the country.

Please help these innocent rabbits live their lives to the fullest. Adopt a bunny today or even foster!
